Unpackaged Product Width (mm)	371
Unpackaged Product Height (mm)	19
Unpackaged Product Depth (mm)	17
Material	Plastic
Plastic Material detail	ABS
Etim Code	EC011497

Description

Window vents which can be mounted both protruding over a row of holes/slot, or countersunk with the wall. Fresh 31F has a flange which cover the recess.

Internal part

The internal part is equipped with a variable precision damper which is adjusted by a regulator (on the front of

the vent). A minimumflow-stopper can be used to ensure a certain airflow (accessory).

Maintenance

In order to ensure correct airflow we recommend to clean the vent and channel every 2-3 years.
